Re: Requirement to connect to Caddo Parish Waterworks District No. 7; Caddo Parish, Louisiana

Dear Mr. And Mrs. Homeowner:

Caddo Parish Waterworks District No. 7 (WWKS No. 7) has completed a project to provide potable water to your subdivision. WWKS No. 7 has worked very hard to provide safe drinking water to your neighborhood. I am confident that the customers in this area will reap public health benefits from the completion of this project. The water provided by WWKS No. 7 is monitored by the Office of Public Health in accordance with the USEPA federal safe drinking water requirements.

I wanted to take this opportunity to notify you that the Louisiana Administrative Code Title 51 Part XII Section 347.A. states, in part, that "all inhabited premises and buildings located within 300 feet of an approved public water supply shall be connected with such supply, provided that the property owner is legally entitled to make such a connection".

I would like to encourage you to contact Caddo Parish Waterworks District No. 7's office at 318-925-6880 for information about the water system and how to complete your connection.

If I can be of further assistance, please feel free to contact me at 318-676-7477.

Sincerely,

Jennifer D. Kihlken, P. E.  
District 4 – District Engineer
